

## IN THE MOOD FOR PERFECTION

Since 1972 the invention of innovative products, like rotating speaker cabinets and professional Entertainer keyboards in the 80's and 90's, led to the reason that we reached a leading position on the worldwide market.

Our own production of high power loudspeakers, PRO-PA-Systems and amplification expanded the sales program with great success. We offer a wide product-line under the brands SOLTON® and aa-CRAAFT®. With our experience of more than 50 years in the PRO-audio-field, a high quality standard is guaranteed. An excellent sound, developed by German engineers, taken over by many artists, theaters and concerts.

Quality, compactness and a realistic cost-benefit ratio is our maxim. We create your new emotions.
